The Fall of Noyon, With the French on the Heels of the Germans, is the Starting Development Today—German Army at this Point Unable to Get Out of the Way—British Obligated to Retire at One Point

LAND 423 AMERICANS SICK AND WOUNDED

(By Associated Press)
Washington, Aug. 29.—During the week ending August 23rd 423 sick and wounded soldiers from the American Expeditionary Forces were landed in the United States and sent to Army hospitals, the War Department announced today. For the preceding week the number was 333.

(By Associated Press)
Washington.—Noyon, the southern anchor point of the German Army in the Somme battlefield, has been occupied by the French. The capture of the city had been expected for several days, and its effect on the great battle of Picardy was, therefore, largely discounted. With the fall of Roye and Chaulnes to the northward Noyon became untenable. Over the front to the north of Noyon there has been apparently little change in the situation. The British, operating south of the Somme, are said to be advancing but details of their progress do not appear in official announcements. West of Arras the Germans launched heavy counter attacks which were repulsed. But it is admitted by London that the British forces holding positions at Oppy have been withdrawn to the west of that village. The development of the Allied advance indicates that the pocket on the southern end of the battle line is being emptied, and there is little hope that the Allies will be able to catch any large number of enemy troops there.

With the French Army in the field.—Noyon was occupied this morning by the troops of Gen. Humbert. Gen. Mangin's men crossed the Oise River and took Molincent. The French First Army took Quenoy Wood just to the west of the Canal du Nord. The Wood was a strongly fortified position and from it the Germans endeavored to check the French pursuit. The fall of Noyon comes as a heavy blow to the Germans who were thought during the early days of the Picardy offensive to be planning to hold it as a southern pivot of their line which runs northward along the whole of the old battle front of 1916. Noyon is situated on the right bank of the Oise River at the junction of that stream and the little River Verre. One railroad runs through the town; it comes up the Oise Valley from Compeigne and turning east at Noyon leads to Chauny and La Fere. Noyon also is a great highway center. One road runs to Roye, one to Ham, one goes up the Oise Valley, and another down into Carlepont Forest to the southeast and still another goes down the Oise to Compeigne. Noyon is a very ancient town, being known to the Romans.

With the French Armies in the field.—The rapidly succeeding military events not only confirm that the Germans have lost control of their operations in the Region of the Somme, Aves and Oise Rivers, but they indicate that their retreat is getting out of hand. Pressure from Gen. Humbert's third army from the west and from Gen. Mangin's men who crossed the River Oise from the south and took Molincent this morning, while other French troops are entering Noyon, adds greatly to the difficulties of the enemy. The increased danger from those operations will oblige the Germans to make further sacrifices in order to save Gen. Von

Hutler's army from disaster. The Somme line having been rendered difficult for the Germans by the rapidity of the Allied pursuit there is now a question with the French troops ready to cross the Somme at the enemy's heels, where he will be able to make a further stand.

TO CROSS LINE IF ANOTHER SHOT IS FIRED

Gen. Cabell, American Commander at Nogales, Serves Warning Upon Mexican Governor of Sonora

(By Associated Press)
Nogales, Ariz., Aug. 29.—Firing was resumed about 9.55 last night. Between 15 and 20 shots were fired from the Mexican side of the border. A general alarm was sounded on the Arizona side of the international line and the mobilization of troops and civilians followed immediately. American forces here were increased in the afternoon by the arrival of new units. Gaston Reddick, a custom guard, aged 26, died here last night of wounds received in the clash with Mexicans across the border yesterday. This was the third American death from injuries received in the fight.

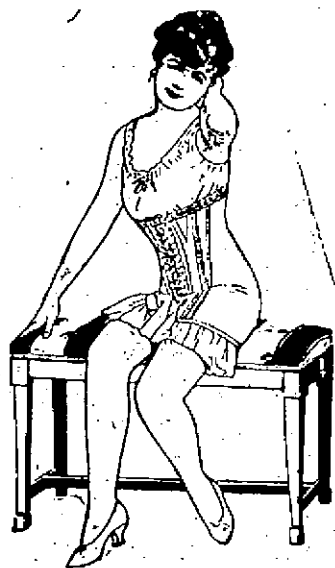

Nogales, Ariz., Aug. 29.—Notification that he would cross the line if another shot was fired by the Mexicans was sent last night by Gen. DeRosey Cabell, commander of the American forces, to Gen. P. Elias Calles, governor of Sonora. The notification was sent General Calles by General Cabell through the

Mexican consul and the American consul at Nogales, Sonora, when firing was resumed on the Mexican side of the border after regrets had been offered by the Mexican officials under an armistice effected. In the firing from the Mexican side of the border last night, one American enlisted man, whose name was not immediately obtainable, was wounded.

Although the Army outbatted the Shattuck team in Wednesday night's Sunset League game, the latter won two hits with four bases on balls and an error giving them six runs in the fourth inning. Belger, who did the hurting for the wooden ship builders, was hit freely by the soldiers and he did not get his usual support. Cutting pitched for the Army and other than the fourth inning he pitched good ball. This is the Army's last game as they have forfeited the two games they failed to show on for last week, so the P. A. C. and the Shattucks are given a game apiece. The Sunset League will close for the season on Friday evening when the P. A. C. and the Atlantic play a postponed game. This has been the longest season ever attempted and very successful from the quality of the base ball but not from the financial receipts, the collections being below the ordinary year.

In the game last evening the Shattucks opened with Conlon being hit, but he was nailed trying to steal second. Dugan hit for a single; Kierstein was hit and with two men on Meehan hit for three bases; Mitchell fanned. Deaudouin was safe on Cutting's error and Meehan scored; McKoon fled to Warren.

They added another in the second on a single by Belger, two stolen bases and an error by Corning.

It was in the fourth when they took up the game. McKoon, Slattery and Belger were issued passes, clogging the bases, and Conlon immediately relieved the congestion with a three base hit and he scored when Corning booted Dugan's grounder. Kierstein drew a pass and Meehan singled, scoring Dugan; Mitchell was thrown out by Slattery and Kierstein scored on the play. Deaudouin and McKoon were out via the air route.

The Army scored two runs in the second after Dowdy fled to right; Smith was safe on McKoon's error. Warren singled; Stone fled to Conlon; Morrison hit for two bases, scoring Smith and Warren, Cutting fanned.

In the fourth they scored four runs. Dowdy and Smith shingling and Dowdy scored on Deaudouin's bad throw and Smith went to second; Smith was safe on a fielder's choice which failed to get him at third; Stone singled and Smith scored. Morrison hit to Mitchell, who nailed Warren at the plate; Cutting was thrown out by Mitchell; Corning singled and Stone scored; McKoon singled and Morrison scored, but Corning was thrown out at third by Dugan.

They scored another run in the fifth when Dowdy hit for three bases and scored on McKoon's error. The score:

FINDS HIS WAR WORK

New York, Aug. 23.—Judge Ben B. Yandrey at Denver, Colo., who has just returned from a trip of several months through England, France and Italy, has become an enthusiastic worker in the ranks of the War Camp Community Service for the Commission on Training Camp Activities of the War and Navy Departments. So imbued is he with the conviction of the fundamental necessity of this work, as a result of his observation of the armies abroad, that he says: "If I had my way, War Camp Community Service would follow the American soldier around the world. England and France especially are in crying need of the kind of work we are doing here through War Camp Community Service. In both England and France we would find the people ready to cooperate with us and the soldiers themselves ready to welcome us. All of those who have been privileged to visit the front testify to the fine physical and mental condition of our boys. I am convinced that one cause is the kind of work that has been done for

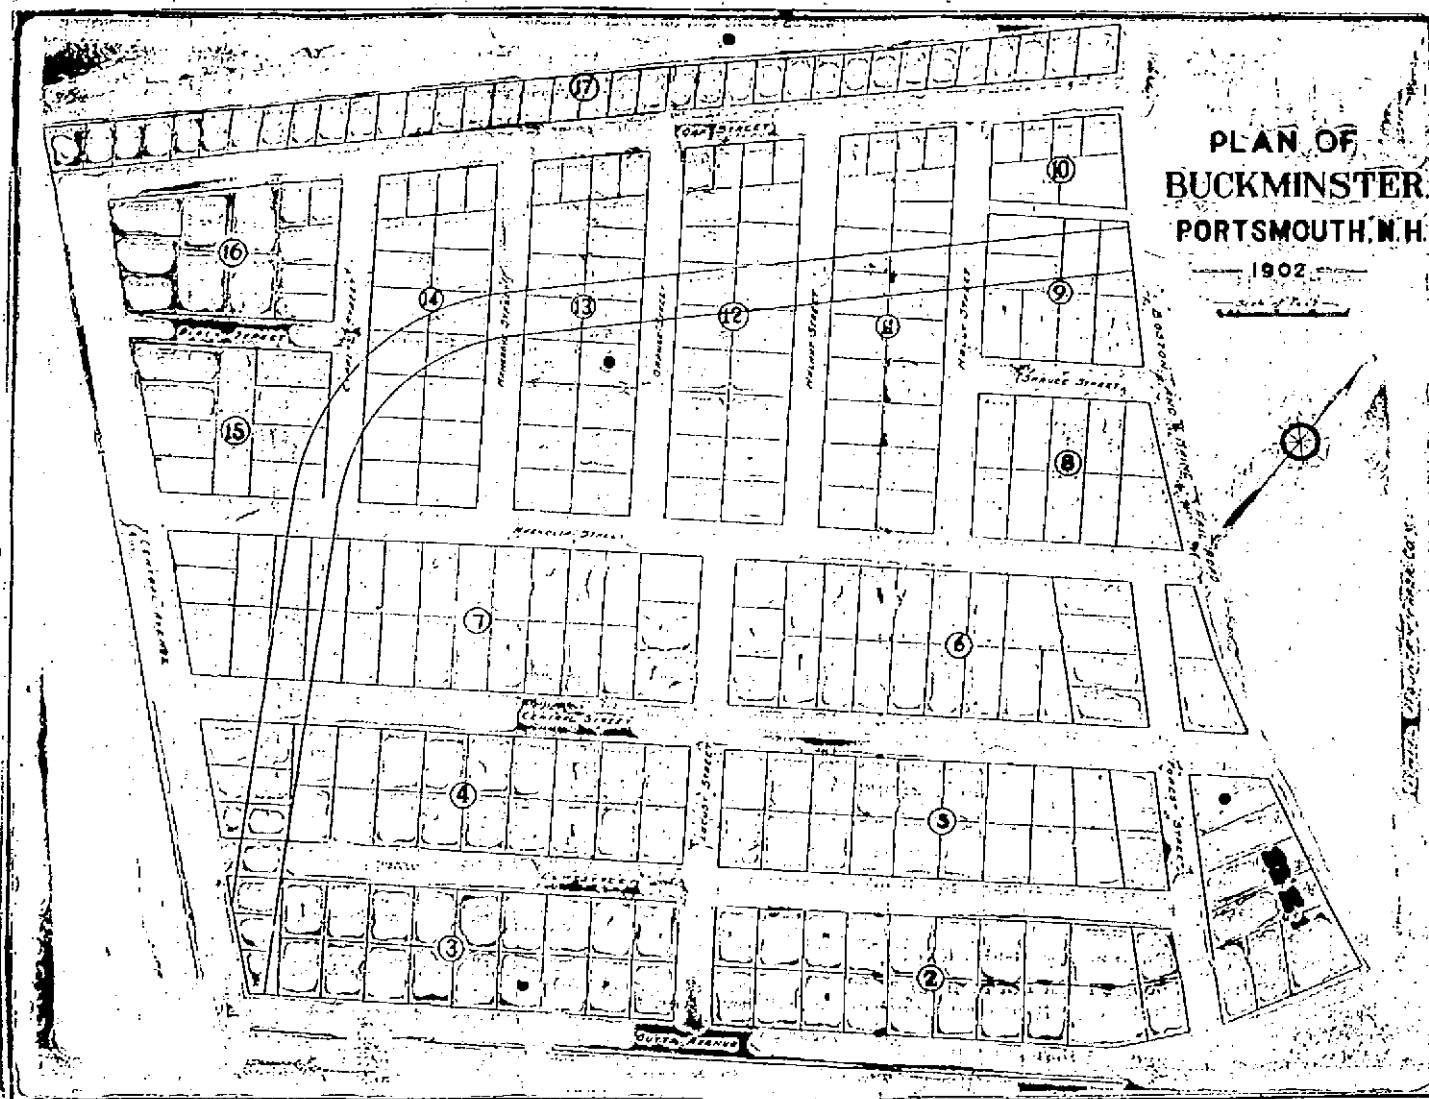

our fighting forces by the people at home.

Communities Are Responsible
"War Camp Community Service is doing its work in a sane and wholesome way. In the cities and towns near our great training camps it is fighting vice, disease and crime as it is fighting death. The big secret of successful work in this very important field has been discovered by War Camp Community Service. It recognizes many of our difficulties to be just as much 'human' as 'moral' problems. Frankly, I think they are a great deal more 'human'. Therefore they must be met in a human way. This is the slogan of War Camp Community Service. It strikes at the root, the cause of bad things. It does this simply by providing good things that are just as acceptable.

"But to accomplish this there must be some one to provide, someone to direct. War Camp Community Service conducts the activities for good, with a force unequalled and at an expense to the community not one hundredth part as large as that which the community paid when it left its boys and girls to the forces of evil. The community must pay in either case. Its people must choose as to the manner in which they pay. While every man is responsible for himself and his own conduct, there is also just as big a responsibility on the community for the soldier, boys in the midst as there is upon the parent in the home for the child."

Victory Is Certain
I have gradually come to see this war from two major angles. First, there is the physical side. That is, its forces of violence. These depend upon the physical strength, the equipment of the soldier, and what he does with these agencies. Then there is the spiritual or moral side. The spiritual and moral aspects of the problem are closely linked with what we do for the soldier. Generally speaking, how well the soldier does his part depends in a very large measure upon how well we do our part. "The patient to which the moral and

physical aspect or angle of the war has been emphasized. It is profoundly stimulating. It presents one of the most promising phases of the World Conflict as it relates directly not only to the welfare of the soldier but to the welfare of all of our home communities as well.

Summer time means romping and playing, which won't leave clothes in too good a condition for school wear. New sweaters, dresses, etc., for the girls. And new blouses, hats, caps, etc., for the boys.

Mid-Summer Reductions

Clean-Cut Saving in Summer Stock

Despite existing trade conditions, this is a real old fashioned mark-down event which is bound to whet the appetite of the keenest bargain hunter. The price reductions are genuine through and through and will exceed the expectations of the most economical shopper, because of the fact that this month we simply must clear all out the remaining summer stock and that fall and winter goods are pressing hard for recognition. We are showing scant courtesy to former prices, thereby offering fine bargains to those economy-wise people who know extraordinary values when they see them. Are you one of them?

SAILORS GET DRUNK ON BAY RUM

Two sailors charged with assault and a marine charged with being drunk were on the police blotter last night as the result of a call from the Army and Navy home.

The two sailors marked for assault are ex-prisoners who have been released to duty and are attached to the naval prison. Wednesday evening, with the marine, also a released prisoner, they secured two bottles of bay rum and they were drinking it when one of the sailors on duty at the home discovered them in the basement. He tried to stop them and the two sailors turned upon him and began to beat him up. The police were called and they placed the soldiers under arrest and the marine, who took his part in the fight, but who was drunk from the effects of the bay rum, was also locked up.

They had consumed at least one bottle of the bay rum before discovered and all were under its influence.

APPEAL FOR VOLUNTEERS

An appeal has recently been made for volunteer workers for service in the Boston Army and Navy Canteen. Among the prominent women who have volunteered for service as hostesses are Mrs. Barrett Wendell of Boston and this city, who will be in

charge on Thursdays of each week. It is expected to have 35 workers in the canteen each day.

DRIVER ESCAPES BUT HORSE WAS BADLY INJURED

Navy Yard Train Strikes
Wagon on Noble's Island.

One horse was badly injured and a dump wagon owned by the Standard Oil Company was wrecked in an accident on Noble's Island on Wednesday afternoon.

The driver had just time to escape when the navy yard train with a locomotive on each end, struck the wagon as it was going to the yard for the workmen.

The horses shoulder was lacerated to such an extent that the company fear the animal cannot be saved. This accident held up traffic for a while.

KITTERY NEEDS HOMES

If only some wonderful magic would provide a hundred houses in Kittery Saturday night, not a building would be vacant by Monday morning. A prominent Kittery man made that assertion this week. He did so as the result of a telephone inquiry as to whether he knew where there was a rent. Conditions are similar to those which exist in many other places. It is a problem to meet the demand not only for rents but for rooms. So great has been the expansion of the town on account of the war.

THOMAS E. CALL DIES IN BOSTON

Passed Away at Private Hospital After Short Illness of Heart Trouble.

A message received on Wednesday evening announced the death of Thomas E. Call, one of the best known residents of Portsmouth who passed away at a private hospital in Boston during the day.

Mr. Call was taken ill with heart trouble while visiting at the home of George Francis, a well known business man of Boston, and died in a short time after being sent to the hospital.

Mr. Call was 71 years of age and a native of this city. For over 40 years he was engaged in the lumber business at North End with his father under the firm name of Thomas E. Call and Son, and later conducted that business with his brother following his father's death. In his younger days he took an active part in politics as a democrat and filled the office of county treasurer for four years.

He was a member of the legislature in 1895, St. John's lodge, A. F. and A. M., DeWitt Clinton Commandery, K. T., Portsmouth Lodge, B. P. O. 19. He was much interested in shipping and was a stockholder in several vessels owned in this port and elsewhere. For several years after retiring from business, he had a summer home at Alton, N. H., and passed much of the winter season in Boston.

He is survived by one brother, Attorney Howe Call and one sister, Miss Call. The body will be brought to Portsmouth and the funeral services held from the home of his sister, Miss Mary E. Call, 752 South street, on Friday afternoon at 2.30. Friends invited.

OH YOU GOLF

Caddy girls at the York Country Club have made their appearance for the first time, and the boys are no longer threatening to strike or failing to arrive on the job at the time designated for them to begin work. The employment of the girls as caddies is something new for the local club but according to the patrons of the links the experiment is working equally well here as it has elsewhere and the girl caddies have come to stay.

SCORNE THE IDEA OF EXEMPTION

Dr. Harry J. Cronin, one of the last quota of draftees from this district to Camp Devens, has certainly shown the right spirit in doing his bit.

Dr. Cronin regardless of a good practice he had established in a short time, had made every effort possible to join the army or the navy, but was rejected by both branches of the service on account of his eyesight.

As a member of the school board he was entitled to exemption from

the fact that it is an elective office. He was advised by several to take advantage of this ruling of the draft law, but scorned the idea. A recent change in his classification brought him just inside the required weight and made him a member of the National Army. Had he desired to remain at home he could have done so as his term of office on the school board does not expire until 1921.

Make the most of the Summer evenings.

A statement is sometimes made that on account of its absolute supremacy the Victrola is high priced. The answer is a simple one. You can buy a genuine Victrola for \$22.

JUST DAVID

By ELEANOR H. PORTER

Author of "Pollyanna"

Ten year old David and his father (a famous violinist) lived on a mountain, with the woods, the wild things, and their two violins. Then a change came and David was left to the care of gruff farmer folk in whom the warmth of kindness was buried deep. But "Just David" brought music and sunshine into many lives and played a part in a very pretty romance.
